Africa

Chi P'eng-fei (姬鵬飞), Foreign Minister:

The Chinese government is determined to establish and develop friendly relations with all the independent African countries on the basis of the five principles of peaceful coexistence and will stand unswervingly on the side of the peoples of the southern African countries who are fighting for independence and liberation until they win complete victory in their struggle. We believe that the further strengthening and development of the relations between China and African countries not only accord with the aspirations and interests of the Chinese and African peoples, but also will conduce to the strengthening of the Afro-Asian people's unity against imperialism and the common cause of the countries of the Third World of opposing the power politics and hegemony practiced by the superpowers.

Cambodia

Jen-min Jih-pao Editorial:

Samdech Norodom Sihanouk's five-nation tour proves vividly once more that the Cambodian people fighting for national independence and liberation enjoy abundant support because theirs is a just cause and that the Royal Government of National Union of Cambodia enjoys high prestige in the world....

We are convinced that by fighting shoulder to shoulder and strengthening their unity with the Vietnamese and Lao peoples, and with the support of the world people, the Cambodian people are bound to win complete victory in their struggle against US aggression and for national salvation.

Canada

Chi P'eng-fei, Foreign Minister:

It should be noted here that Canadian Prime Minister Trudeau has all along been active in promoting the development of relations between China and Canada. He has recently accepted Premier Chou En-lai's invitation and will pay a friendly visit to China in the near future. We are looking forward to this visit of great importance to the development of the friendly relations between China and Canada. We are gratified with the wholesome growth of the relations between China and Canada and will do our part to further strengthen the friendly relations and cooperation between China and Canada in all fields.

France

Chi P'eng-fei, Foreign Minister:

The social systems of China and France are different and the foreign policies of our two countries are not quite alike. However, both our countries love our independence and oppose foreign control and interference. Both our countries wish to develop our relations on the basis of the five principles of mutual respect for sovereignty and territorial integrity, mutual non-aggression, non-interference in each other's internal affairs, equality and mutual benefit, and peaceful coexistence. The present visit to China by His Excellency Foreign Minister Schumann and Mme. Schumann and all the other distinguished guests on the French Government Delegation has provided the two sides with an opportunity to exchange views on mutual relations and questions of common interests, and this will be conducive to an increase in the mutual understanding and ties between our two countries. I wish complete success to the visit of His Excellency Foreign Minister Schumann.

("Chinese Foreign Minister Chi P'eng-fei's Speech at Banquet Given in Honor of French Foreign Minister Maurice Schumann," NCNA-English, Peking, July 7, 1972--SCMP 72-29 [5177]/110-111)

Chi P'eng-fei:

The visit to China of the French Government Delegation led by Foreign Minister Maurice Schumann is a major event in the development of the good relations between our two countries.

The talks we have held are friendly and sincere, and they embody the spirit of respecting each other and seeking mutual understanding. Both you and we treasure the foundation laid by Chairman Mao Tsetung and General De Gaulle for developing Sino-French relations; both of us have the desire to continue to develop the good relations between our two countries. Through the talks we have explored the road for further developing the friendship between our two countries.

China and France have different social systems, and we hold different views on some international issues. Through a deep-going exchange of views, we have enhanced mutual understanding. We have been able to find many common grounds on major issues. Thus we have the possibility of coordinating our efforts in many sectors of international activities. The talks we have held are fruitful and satisfactory.

Indochina

Chi P'eng-fei, Foreign Minister:

The only way to settle the Vietnam and the Indochina questions is to withdraw the US and its vassal forces from Indochina and completely cease supporting the Nguyen Van Thieu puppet government, the traitorous Lon Nol-Sirik Matak-Son Ngoc Thanh clique and the Lao rightists, so that the three Indochinese peoples may solve their own problems by themselves. So long as US imperialism does not stop its aggression and interference, the Vietnamese, Khmer and Lao peoples will continue their war of resistance to the end and the Chinese people will continue to support the Indochinese peoples in their war of resistance to the end.

Chou En-lai, Premier:

US imperialism must completely stop its armed aggression against the three Indochinese countries, totally withdraw all the armed forces of the United States and its followers and completely cease its support to the Nguyen Van Thieu puppet clique, the traitorous Lon Nol-Sirik Matak-Son Ngoc Thanh clique and the Lao rightists. The majority of public opinion in the world, including that in the United States, is strongly demanding that the US government terminate its war of aggression against Vietnam at an early date through serious negotiations. The United States definitely will not succeed should it think that it could intimidate and subdue the heroic Vietnamese people with a series of measures of war threats such as wanton bombing, mining and blockading. On the contrary, it will only arouse the Vietnamese and the other Indochinese peoples to even more determined resistance with common hatred against the enemy and stimulate the people of China and all over the world to give even greater sympathy and support to the Vietnamese and the other Indochinese peoples in fighting to the end, and bring a more disastrous defeat on the United States itself.

("Premier Chou En-lai's Speech at Banquet in Honor of PDRY Government Delegation," NCNA-English, Peking, July 9, 1972--SCMP 72-29 [5178]/169)

Jen-min Jih-pao Editorial:

If the US government really wants to settle the Vietnam problem and the Indochina problem, it should put an immediate end to its armed aggression against Vietnam and other countries in Indochina, unconditionally and totally withdraw its aggressor troops and those of its vassals from South Vietnam within a definite time limit, cease supporting the Nguyen Van

Thieu puppet clique, the Lon Nol traitorous clique and the Lao rightists, and let the three Indochinese peoples settle their problem themselves in accordance with their own will.

...The Chinese people regard it as their bounden internationalist duty to give all-out support to the three Indochinese peoples' struggle against US aggression and for national salvation. So long as the US imperialist war of aggression against Vietnam and Indochina goes on, the Chinese people will resolutely support the Vietnamese and other Indochinese peoples to fight to the end until they win complete victory.

Korea

Jen-min Jih-pao Editorial:

The affairs of each country should be handled by its own people themselves. Interference in other country's affairs by any country is unjustifiable. The Korean people are the masters of Korea. The question of the reunification of Korea should be solved by the Korean people themselves, rejecting the interference of outside forces. The publication of the joint statement of North and South Korea eloquently shows that direct talks between North and South Korea without interference by outside forces can achieve progress in promoting the reunification of the fatherland. The root-cause of the long-term split of Korea lies in aggression and interference by US imperialism. The fact that the Korean people themselves have now opened a way for the independent peaceful reunification of the fatherland has completely stripped US imperialism of all pretexts to interfere in the internal affairs of Korea. The United States should withdraw all its troops stationed in South Korea and stop introducing Japanese militarist forces into South Korea. The national will of the Korean people for the reunification of the fatherland is unshakable and no force can hold back the historic trend of independent peaceful reunification of Korea.

The Chinese government and people have all along resolutely supported the Korean people in their just struggle against US imperialist aggression and for the peaceful reunification of the fatherland, and resolutely supported the Workers' Party of Korea and the Government of the Democratic People's Republic of Korea in their just and solemn stand for the realization of peaceful reunification of the fatherland. We firmly believe that Korea with 3,000-ri beautiful land will certainly be reunified and the more than 40 million flesh-and-blood Korean compatriots will certainly be reunited.

("A Good Beginning," NCNA-English, Peking, July 9, 1972--SCMP 72-29 [5177]/118)

Li Te-sheng (李德生), Director of PLA General Political Department:

The Chinese government and people will, as always, strive to the constant development of the militant friendship between the two peoples and the friendly cooperation between the two countries. The Chinese people will stand till final victory by the side of the fraternal Korean people in their just struggle against interference of outside forces and for independent, peaceful reunification of their fatherland.

Li Yün-ch'uan (李云川), PRC Ambassador to DPRK:

Now, a road has been opened by the Korean people themselves for the independent, peaceful reunification of their fatherland. This has stripped US imperialism of all pretexts for interfering in the internal affairs of Korea. The United States must withdraw all its armed forces from South Korea and stop introducing the Japanese militarist forces into South Korea. The Chinese government and people have always firmly supported the just struggle of the Korean people against US imperialism and for the peaceful reunification of their fatherland and firmly supported the righteous stand of Workers' Party of Korea and the DPRK government for the peaceful reunification of their fatherland.

("Chinese Ambassador Gives Banquet To Mark 11th Anniversary of Sino-Korean Treaty of Friendship, Cooperation and Mutual Assistance," NCNA-English, Pyongyang, July 11, 1972--SCMP 72-30 [5180]/26)

Li Te-sheng:

The Chinese government and people have always maintained that the affairs of each country should be handled by its own people. The question of the reunification of Korea should be solved by the Korean people themselves and brooks no interference by outside forces. The Korean people have now opened up a way to attaining the peaceful reunification of the fatherland. US imperialism must stop interfering in the internal affairs of Korea and must withdraw all its troops stationed in South Korea. The Japanese militarist forces must not be allowed to poke their noses into South Korea. Anyone who attempts to stop the historical tide of the independent peaceful reunification of Korea is doomed to failure. The Chinese people will, as always, firmly support the Korean people in their just struggle against imperialist aggression and for the independent peaceful reunification of the fatherland. We are firmly convinced that the three thousand-*li* beautiful land of Korea will surely be reunified and that the forty million Korean people will surely be reunited.

("Korean Ambassador to China Gives Banquet To Celebrate 19th Anniversary of Victory of Korea's Fatherland Liberation War," NCNA-English, Peking, July 27, 1972--SCMP 72-32 [5190]/34)

Jen-min Jih-pao Editorial:

A new situation has emerged now on the Korean peninsula. An agreement has been concluded between North and South Korea on the independent and peaceful reunification of the fatherland....

The question of reunification of Korea can be resolved only by the Korean people themselves. Korea has remained split for a long time because of US imperialist aggression and intervention. Therefore, the independent and peaceful reunification of Korea can be attained only when the interference of outside force is removed.... This year's UN General Assembly session should respond positively to the just demand of the Korean people, re-examine the activities of the "United Nations Commission for the Unification and Rehabilitation of Korea" and the question of the continued presence of the "UN Forces Command" in South Korea so as to create favorable conditions to accelerate the independent and peaceful reunification of Korea.

Pakistan

Ch'iao Kuan-hua (乔冠华), Vice Foreign Minister:

The Chinese government and Chinese people firmly support the struggle of the Pakistan people to safeguard national dignity under the leadership of President Bhutto. This struggle is a just struggle and just struggles are bound to win final victories.

...The purpose of my visit to your country is to strengthen the friendship between our two countries and this is normal activities between two friendly sovereign states. However, some people have gone so far as to attempt to veto it. Dear sirs, this would not do. Now I have come and I will come again in the future. None can ever succeed in attempting to undermine the friendship between China and Pakistan.

President Bhutto is an outstanding statesmen. It is our firm belief that with his wisdom and determination President Bhutto will surely be able to guide the Pakistan people to overcome these temporary difficulties and win continuously new successes in building their own country.

South Africa

Huang Hua (黄 华), PRC Permanent Representative to UN:

The Chinese government and people have always extended deep sympathy and resolute support to the Namibian people's just struggle for self-determination and independence. We will unswervingly stand together with the African people and the Namibian people and join them in working for the African cause of unity against imperialism and for the Namibian people's just cause of national independence. We hold that the correct solution to the question of Namibia is: the correct stand of the previous General Assembly and Security Council resolutions on Namibia must be upheld, the South African authorities must immediately end their illegal occupation of Namibia and withdraw their military and police forces as well as their administration from Namibia, so as to let the Namibian people achieve their independence free from any foreign interference. In view of the South African authorities' refusal to comply with the relevant resolutions of the United Nations, the Security Council should consider the adoption of more effective measures to give strong support to the Namibian people's just struggle for independence and freedom and should not take any measures which might possibly help the South African authorities extricate themselves from their isolation and alleviate the international community's pressure on the South African authorities. The Security Council should take corresponding measures in consideration of the resolution on Namibia adopted by the 9th Summit Conference of the OAU.

The Chinese delegation has serious reservations and expresses deep anxiety and apprehension over the prolongation of the Secretary-General's mandate and the continuation of the "dialogue" with the South African authorities. The words and deeds of the South African authorities have already proved that continued dialogue with South Africa will be of no help to the Namibian people's struggle and the complete settlement of the Namibian question.

Sri Lanka

Joint Communique:

In order to support Sri Lanka in developing her national economy, the Chinese government decided to provide the government of Sri Lanka with a long-term loan free of interest....

Referring to Sri Lanka's proposal for declaring the Indian Ocean as a zone of peace...the Chinese government held that the proposal put forward by Sri Lanka reflects the urgent desire of Afro-Asian countries to safeguard national independence and state sovereignty and to oppose the aggression and expansion of the superpowers....

The two sides expressed their concern over the present tension in the South Asian subcontinent and reiterated that the outstanding issues in the region should be settled through peaceful negotiations....

The two sides deemed with satisfaction that the state visit to China paid by Prime Minister Sirimavo Bandaranaike of the Republic of Sri Lanka and the exchange of views between the leaders of the two countries had made an important contribution to the increase of the friendly relations and cooperation between the two countries and the promotion of the Afro-Asian peoples' cause of unity against imperialism.

Tanzania

Chi P'eng-fei, Foreign Minister:

The friendly relations and cooperation between our two countries are a fine example of international relations of a new type. We are sure that the present friendly visit to China by His Excellency Minister Malecela at the Head of the Tanzanian Goodwill Delegation will certainly further enhance the militant friendship between the two peoples and the friendly relations and cooperation between the two governments.

United Nations

Wang Jun-sheng (王润生), PRC Representative to UN:

As regards the question of aid, we have consistently maintained that the donor country, when providing economic aid in any form must scrupulously respect the sovereignty of the recipient countries, treat them as equals, attach no conditions and ask for no privileges. We are resolutely opposed to the practice of control and plunder under the name of "aid"....We are firmly opposed to usury and the use of the exacting of repayment as a means of political pressure upon the recipient countries....

We are happy to see that fruitful economic and technical cooperation is being conducted among some developing countries....As a member of the Third World, China wishes to work together with the other developing countries for the advancement of this new type of international economic relations. At the same time, we also wish to develop economic and trade exchanges with various countries of the world on the basis of equality and mutual benefit.

The just struggle of the people of all countries support each other. We, the Chinese people, are sincerely grateful to the peoples of the world and the friendly countries for their valuable support and assistance to our revolution and construction. China has also, to the best of her ability, provided some aid to the revolutionary people enagaged in struggle and to friendly countries; this is our bounden internationalist duty. However, China's economy is still comparatively backward at present, and the support we give to the people of the world is mainly political and moral, while the material aid we can provide is yet scanty. We are determined to change this situation in which our ability falls short of our wish, and, with the advance of China's socialist construction strive to make greater contributions to mankind.

("Chinese Representative Speaks at United Nations Economic and Social Council," NCNA-English, Geneva, July 6, 1972--SCMP 72-29 [5177]/128-132)

Pu Ming (卜明), PRC Alternate Representative to UN:

China's loans to foreign countries have long been interest-free. If a recipient country finds itself in difficulty to repay a loan when it is due, the repayment period could be extended time and again. We never press the recipient countries for debt-servicing. However, China's economy is still comparatively backward at present and the material aid we can provide is very limited. We must work hard and strive to change gradually this situation in which our ability falls short of our wish.

We consider that in carrying out its work on multilateral aid, the United Nations Development Program should heed the voice of the developing countries and make full allowance for their difficulties....

In view of the special condition of the least developed among developing countries, we full agree that special measures should be taken in this regard by providing them with aid on more favorable and softer terms.

Ch'en Chih-fang (陳志方), PRC Representative to UN:

The Chinese delegation supports the coastal states, and particularly the developing states, in their just struggle to develop their national economy, safeguard state sovereignty and oppose the superpowers' plunder of sea fishery resources. We hold that the coastal states have every right to delimit, according to their geographical conditions and in the light of the needs of their national economic interests, certain economic zones beyond their territorial seas, so as to protect their fishery resources.

("Chinese Representative Speaks at UN Seabed Committee Meeting," NCNA-English, Geneva, July 21, 1972--SCMP 72-31 [5187]/134-135)

Shen Wei-liang (沈韦良), PRC Representative to UN:

We hold that straits within territorial waters, whether or not they are often used for international navigation, should be subjected to regulation by the coastal states concerned. Foreign commercial ships may have innocent passage through them but must observe the relevant laws and regulations of the coastal states. Foreign warships must obtain prior authorization before they can pass through straits within the territorial waters of coastal states.

We hold that a fair and reasonable solution to this question should be sought by all countries in accordance with the principles of mutual respect for sovereignty and territorial integrity, mutual non-aggression and non-interference in each other's internal affairs, and that the hegemony of the superpowers trying to partition and control the seas must be firmly opposed.

Hsia P'u (夏璞), PRC Representative to UN:

We consider it necessary to establish an international regime applying to the seabed area and its resources beyond the limits of national jurisdiction....

We hold that this international regime and machinery must ensure that

the area is under rational management, and that they must not be manipulated an monopolized by the superpowers, so that its benefits may be shared by all countries, with the interests and needs of the developing countries, whether landlocked or coastal, taken into particular consideration....

We think that it is appropriate to include living resources in the scope of its control....We are of the view that the function of the internation regime should not be confined only to governing the activities of the exploiration and exploitation of the seabed....

Now, some people have proposed to include the question of the prohibition of nuclear tests and the emplacement of nuclear weapons in the seabed area into the international regime. In this regard, we wish to state our position. It is well known that now the two superpowers are possessing large quantities of nuclear weapons....Under the circumstances, to advocate prohibition of nuclear tests in the international seabed are is in effect designed to enable the two superpowers to continue monopolizing nuclear weapons control other countries and tie the hands of peace-loving countries. This is what we cannot accept....

We should first of all prohibit the activities of all the nuclear-powered submarines in the international seabed area and in the seabed area of other states. It is not enough to merely prohibit the emplacement of nuclear weapons and the carrying out of nuclear tests in the seabed area. In particula the prohibition of nuclear tests in the seabed area is of little practical significance. On the contrary, it would create a false sense of security. This is what we cannot agree.

Wang Jun-sheng:

Tibet is China's territory. Matters concerning Tibet are China's internal affairs in which no foreign country or international organization has the right to interfere....

Both Hongkong and Macao are China's territories. There has always been inteflow of Chinese between Hongkong, Macao and other parts of China. The Chinese living in Hongkong and Macao are by no means "refugees," and the so-called "question of Chinese refugees" simply does not exist.

...The Chinese delegation solemnly demands that the Office of the UN High Commissioner for Refugees immediately stop such illegal activities on the questions of so-called "Tibetan refugees" and "Chinese refugees" in Hongkong and Macao, abolish the organs for these illegal activities, and delete all the related parts from the report.

("Chinese Representative Elucidates at UNECOSOC Meeting Chinese Government Position on Questions of So-Called 'Tibetan Refugees' and 'Chinese Refugees' in Hongkong and Macao," NCNA-English, Geneva, July 27, 1972--SCMP 72-32 [5191]/88-89)

Huang Hua (黄华), PRC Permanent Representative to UN:

We hold that the correct solution to the question of Namibia is: The correct stand of the previous General Assembly and Security Council resolutions on Namibia must be upheld, the South African authorities must immediately end their illegal occupation of Namibia and withdraw their military and police forces as well as their administration from Namibia, so as to let the Namibian people achieve their independence free from any foreign interference. In view of the South African authorities' refusal to comply with the relevant resolutions of the United Nations, the Security Council should consider the adoption of more effective measures to give strong support to the Namibian people's just struggle for independence and freedom and should not take any measures which might possibly help the South African authorities extricate themselves from their isolation and alleviate the international community's pressure on the South African authorities. The Security Council should take corresponding measures in consideration of the resolution on Namibia adopted by the 9th Summit Conference of the OAU.

The Chinese delegation has serious reservations and expresses deep anxiety and apprehension over the prolongation of the Secretary-General's mandate and the continuation of the "dialogue" with the South African authorities. The words and deeds of the South African authorities have already proved that continued dialogue with South Africa will be of no help to the Namibian people's struggle and the complete settlement of the Namibian question.

Ch'en Chih-fang:

We think that coastal states, being the direct victims of marine pollution, have the full right as well as necessity to exercise direct jurisdiction and control over areas within given limits, which are adjacent to their territorial seas, in order to protect the health and security of their people and meet the needs of their economic development....

It is regrettable that the representative of New Zealand, in his statement of August 2, should accuse China, which conducted limited and necessary nuclear tests for the purpose of defense, of "presenting the most obvious threat to the environment." It is well known to all that China has conducted very few nuclear tests. Moreover, they were carried out over the airspace of the inland in its own territory, taking into account of various factors such as climate,

wind directions, etc., and adopting measures to avoid as far as possible bring ing nuclear contamination to its own people and people of other countries. Therefore, no harm has been caused so far. It is obvious that the accusation made by the representative of New Zealand is at variance with the facts.

Chi P'eng-fei (姬鹏飞), Foreign Minister:

The 27th Session of the UN General Assembly which is due to begin in September should, in conformity with the will of the people of the world and the trend of history, make positive contributions toward opposing foreign aggression and interference and defending international peace.

The Chinese government and people consistently support the purposes and principles of the United Nations Charter and hold that they should be universally respected by all the countries of the world. We consistently maint that all countries, big or small, should be equal, that the affairs of the worl must be handled by all the countries of the world, and that the affiars of the United Nations must be handled jointly by all its member states,and the super-powers should not be allowed to manipulate and monopolize them. Together with the people of the world, countries of the Third World and all countries that love peace and uphold justice, we will work for the defense of the national independence and state sovereignty of all countries and for the cause of maintaining international peace and promoting human progress.

Huang Hua:

The Chinese delegation firmly opposes the Security Council's consideration of "Bangla Desh"'s application for membership in the United Nations under the present circumstances. The reason is quite obvious.

...It is essential to insist on the following: Only when the relevan UN resolutions have been truly implemented and only after a reasonable settleme of the issues between India and Pakistan and between Pakistan and "Bangla Desh" has been achieved can the Security Council consider "Bangla Desh"'s application for membership in the United Nations.

("Huang Hua's Speech at UN Security Council," NCNA-English, United Nations, August 10, 1972--SCMP 72-34 [5201]/124-125)

*

Huang Hua:

The Chinese delegation definitely cannot compromise on important questions of principle. If the Soviet Union, India and other countries should insist on obstructing the passage of the very right and reasonable draft resolution submitted by the Chinese delegation and try to press the Security Council for admission of "Bangla Desh" into the United Nations in the present circumstances, the Chinese delegation, in defense of the resolutions of the General Assembly and the Security Council, the principles of the UN Charter as well as the interests of the people on the South Asian sub-continent, will categorically vote against it.

("Huang Hua Explains China's Position on 'Bangla Desh's' Application for UN Membership at Security Council Meeting," NCNA-English, United Nations, August 24, 1972--SCMP 72-36 [5210]/124)

*

Huang Hua:

Since the Soviet Union and India, clinging to their obdurate course, have now unreasonably opposed the reasonable proposal of the Chinese delegation and pressed for the Security Council's approval of "Bangla Desh"'s admission into the United Nations, we, as one of the permanent members of the Security Council and in defense of the principles of the UN Charter and the interests of the people of the South Asian sub-continent and the whole world, will be compelled to fulfill determinedly our sacred duty and vote firmly against the unreasonable demand of the Soviet and Indian delegations so as to defend the prestige and authority of the United Nations and the Security Council.

("Huang Hua Exposes Soviet Social-Imperialist Attempt to Further Control, Interfere in South Asian Sub-Continent," NCNA-English, United Nations, August 25, 1972--SCMP 72-36 [5211]/168-169)

*

Jen-min Jih-pao Editorial:

The Soviet and Indian representatives spared no efforts to obstruct and sabotage the Chinese draft resolution and insisted on railroading through the Security Council a decision to admit "Bangla Desh" immediately. This is the height of arrogance! To allow the sinister scheme of Soviet Social-imperialism to come to pass is tantamount to tolerating its willful practice of hegemonism and to encourage its aggression and expansion. It is the duty of China, as a member of the United Nations and a permanent member of the Security Council, to uphold principle and justice in the United Nations. By categorically vetoing the draft resolution put forward by the Soviet Union, India and others, the Chinese delegation was faithfully carrying out its sacred duty.

Ch'iao Kuan-hua (喬冠華), Vice Foreign Minister:

Although it is possible that some temporary phenomena occur now and then, the people of the world always stand by the countries upholding justice. The UN resolution on the India-Pakistan question adopted by 104 votes in the General Assembly last December and the resolution adopted later by 13 votes in the Security Council have fully demonstrated this fact. However, there are people who are now tryping to deny, disrupt or refuse to implement these two resolutions. This is something which China can by no means agree to. We must veto such unjust actions, not only now, but also in the future when necessary, because this is a veto which is used to uphold justice.

United States

PRC Ministry of Foreign Affairs:

On August 22, 1972 US aircraft brazenly bombed a lifeboat of the Chinese merchant ship "Hongqi No. 151" which was anchored off the shore of Hon Ngu Island of Nghe An Province of the Democratic Republic of Vietnam, destroying the Chinese lifeboat and killing the five Chinese crew members.... This is a serious act on the part of US imperialism in gross violation of the freedom of international trade and navigation and a grave provocation against the Chinese people.

The Chinese government and people express great indignation at this and lodge a strong protest with the US government. The Chinese government reserves the lawful right to demand compensation for its losses. The US government must immediately stop all provocations against Chinese merchant ships and guarantee against the recurrence of similar incidents.

USSR

Jen-min Jih-pao Editorial:

The Soviet revisionists have frantically attacked the just stand of China, viciously vilifying her as a "super-superpower." This is ridiculous. You Soviet revisionist worthies have committed all kinds of truculent acts in the world and have fully revealed your own ugly features as a superpower. The best portrayal of this is your intervention and aggression on the South Asian Sub-continent and your recent behavior in the United Nations. We vetoed your unreasonable draft resolution to oppose your acts of a superpower in manipulating the United Nations at will. To tell you frankly, now that the legitimate rights of the People's Republic of China have been restored in the United Nations, we will resolutely stand with countries and people of the Third World and with all those loving peace and upholding justice to oppose power politics and hegemonism, break the manipulation and monopoly of the United Nations by the superpowers, support just struggle of the peoples, safeguard the national independence and state sovereignty of various countries and defend world peace. Your desire to commit evils without meeting resolute opposition from China is sheer day-dreaming.

Vietnam

Jen-min Jih-pao Editorial:

It is plain to all that US imperialism has invaded and occupied South Vietnam, and yet it falsely accuses North Vietnam of "invading" South Vietnam. But such lies can never cover up the facts. The Vietnamese nation is an integral whole, the people of South and North Vietnam are fellow countrymen by flesh and blood. No one can deprive them of their sacred right to support each other to resist aggression. The final declaration of the Geneva Conference stipulates that the 17th Parallel provisional demarcation line of Vietnam "should not in any way be interpreted as constituting a political or territorial boundary." It is for no other purpose than to perpetuate its aggression and occupation of South Vietnam that the US government has fabricated various pretexts to use this provisional demarcation line to prevent the people of South and North Vietnam from supporting each other in the war against US aggression and for national salvation.

...The Saigon puppet regime, propped up by the US government singlehandedly, is utterly illegal and has long been spurned by the South Vietnamese people. The seven-point proposal put forward by the Provisional Revolutionary Government of the Republic of South Vietnam, the two key questions of which have been elaborated, stands for the formation of a three-segment government of national concord in South Vietnam and the subsequent establishment of a government of South Vietnam through election. This is completely reasonable and just. The US government not only refuses to cease its support to the Nguyen Van Thieu puppet clique but spreads the lie that the Vietnamese side is bent on setting up a "communist regime" in South Vietnam. This merely shows that the United States is out to obstruct a genuine solution of the Vietnam issue and to sabotage the peaceful reunification of Vietnam.

Jen-min Jih-pao Editorial:

No outrageous means and intrigues of US imperialism can shake the Vietnamese people's firm will and confidence in their victory in the war against US aggression and for national salvation, nor can they save the US aggressor from its doomed defeat. The US aggressor must immediately stop its bombing and attacks on North Vietnam's dykes and irrigation projects, stop its indiscriminate bombing in North Vietnam and any other acts of aggression against Vietnam, otherwise, it will surely receive severer punishment by the Vietnamese people.

General

Chi P'eng-fei, Foreign Minister:

The Chinese government consistently maintains that all nations, big or small, should be equal; big nations should not bully the small and strong nations should not bully the weak. The affairs of the people of a given country must be handled by the people of that country themselves and no other country has the right to interfere; the affairs of the world should be discussed and settled by all the countries of the world, and should not be dictated by one or two countries.

Jen-min Jih-pao Commentator:

China belongs to the Third World. We are firmly opposed to the manipulation and monopolizing of international affairs by the superpowers. We do not want, and will never want to be a superpower. The Chinese people and other peoples of the Third World had the same historical experiences, and today they are confronted with the common task of struggle. We firmly support the just struggle of the non-aligned countries and their people, and are convinced that so long as they continue to heighten vigilance and persist in unity and struggle, the people of various countries will surely win greater victories.

Sung Chung (宋中), Secretary General of All-China Sports Federation:

We have always stood for the promotion of friendship with the peoples and sportsmen of the world, and for the establishment and development of friendly cooperation between Chinese sports organizations and various international sports organizations on the basis of mutual respect. But we refuse to have anything to do with international sports organizations that have illegally admitted the Chiang Kai-shek clique in Taiwan. As is known to all, there is only one China in the world, that is, the People's Republic of China. Taiwan is a province of China. The All-China Sports Federation is the sole national sports organization which handles all sports on the entire territory of China. Therefore, it is impermissible for anyone to admit the Chiang Kai-shek clique to any international sports organization or international games and create a situation of "two Chinas" or "one China, one Taiwan." We believe that, with the efforts of the personages of the world who uphold justice, the absurd situation existing in certain international

sports organizations in which China's legitimate place is usurped illegally by the Chiang Kai-shek clique will eventually be rectified.

Chi Peng-fei:

The Chinese government and people are resolutely opposed to the contention of the superpowers in the Mediterranean and other areas of the world and to the hegemony pursued by them; we resolutely support the just position and demand put forward by some of the Mediterranean coastal countries.
